Notes to Condensed Consolidated Interim Financial Statements

For the six-month periods ended June 30, 2021 and 2020
(Unaudited - in thousands of CAD dollars, except per unit amounts)

1. Reporting Entity

BTB Real Estate Investment Trust (“BTB”) is an unincorporated open-ended real estate investment trust formed and governed under the Civil code of Quebec pursuant to a trust agreement and is domiciled in Canada. The address of BTB’s registered office is 1411 Crescent Street, Suite 300, Montreal, Quebec, Canada. The condensed consolidated interim financial statements of BTB for the three-month and six-month periods ended June 30, 2021 and 2020 comprise BTB and its wholly-owned subsidiaries (together referred to as the “Trust”) and the Trust’s interest in joint operations.

2. Basis of Preparation

a) Statement of compliance

The unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”). They do not include all of the information required for full annual consolidated financial statements, and should be read in conjunction with the Trust’s consolidated financial statements for the year ended December 31, 2020.

The accounting policies applied by the Trust in these unaudited condensed interim financial statements are the same as those applied by the Trust in its consolidated financial statements for the year ended December 31, 2020.

These condensed consolidated interim financial statements were approved by the Board of Trustees on August 6, 2021.

b) Basis of presentation and measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position which are measured at fair value:

- Investment properties (including right-of-use assets);
- Derivative financial instruments;
- Unit-based compensation;
- Class B LP Units.

The Trust presents its consolidated statements of financial position based on the liquidity method, whereby all assets and liabilities are presented in increasing order of liquidity.

c) Risks and uncertainties related to the coronavirus pandemic (COVID-19)

The COVID-19 pandemic has resulted in the federal and provincial governments enacting emergency measures to combat the spread of the virus. These measures, which included the implementation of travel bans, self-imposed quarantine periods, restrictions on closures of non-essential businesses and social distancing, have caused an economic slowdown and material disruption to businesses in Canada and globally. Given the continuously evolving circumstances surrounding COVID-19, it is difficult to predict with certainty the nature, extent and duration of COVID-19, and the duration and intensity of resulting business disruptions and related financial, social, and public health impacts. Such effects could be adverse and material, including their potential effects on the Trust’s business, operations, and financial performance both in the short-term and long-term. Estimates and assumptions that are most subject to increased uncertainty caused by the COVID-19 relate to the valuation of investment properties and the determination of expected credit losses on receivables (Note 4 and Note 6). The amounts recorded in these consolidated financial statements are based on the latest reliable information available to management at the time the consolidated financial statements were prepared where that information reflects conditions at the date of the consolidated financial statements. However, given the heightened level of uncertainty caused by COVID-19, these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the affected asset or liability in the future.

d) Functional and presentation currency

These consolidated financial statements are presented in Canadian dollars, which is BTB's functional currency. All financial information has been rounded to the nearest thousand, except per unit amounts.

e) Use of estimates and judgments

The preparation of consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Actual results may differ from these estimates, and the differences may be material.

Balance end of period	922,035	903,870

The fair value of a subset of the Trust's investment properties comprised of a selection of the most significant investment properties and approximately 1/3 of the remaining investment properties is determined annually on the basis of valuations made by independent external appraisers having appropriate professional qualifications, using recognized valuation techniques, comprising the Discounted Cash Flow, the Direct Capitalization and Comparable methods. The selection of investment properties subject to independent external valuation is determined by management based on its assessment of circumstances that in its view, may impact the value of a particular individual investment property. The fair value of the remaining investment properties is determined by management using internally generated valuations based on the Direct Capitalization method.

In determining the fair value of investment properties, the Trust has considered the effects of COVID-19 on assumptions such as rent growth, vacancy loss assumptions, credit loss assumptions, as well as valuation metrics. The Trust has adjusted cash flow assumptions for its estimate of near-term disruptions to cash flows to reflect collections, vacancy and assumptions on new leasing. The Trust undertook a process to assess the appropriateness of the rates considering changes to property level cash flows and any risk premium inherent in such cash flow changes. These considerations are reflected in the fair value adjustments of investment properties.

At June 30, 2021, no external appraisals were obtained for investment properties (December 31, 2020 - \$584,745).

The fair value of investment properties is based on Level 3 inputs. There have been no transfers during the period between levels. The significant inputs used to determine the fair value of the Trust's investment properties are as follows:

	Retail	Office	Industrial
As at June 30, 2021			
Capitalization rate	5.25% - 8.00%	5.00% - 8.50%	5.00% - 8.50%

Transaction costs (note 3 (b))	—	882	—	1,711
	—	4,489	—	12,216

Net changes in fair value of investment properties includes the net changes in fair value of right-of-use assets related to the investment properties to which a lease is attached.

The disposition expenses include mainly commissions and debt prepayment penalties on mortgage loans related to disposed properties.

4. Balance of Sale

The balance of sale consists of a loan receivable due January 31, 2024, bearing interest at 7% for the first 3 years, at 7.50% for the 4th year, and at 8% for the 5th year. The balance of sale as at June 30, 2021 is \$6,035 (December 31, 2020 - \$6,034).

5. Other Assets

	\$	\$
Prepaid expenses	3,774	1,498
Deposits	597	656
Total	4,371	2,154

6. Receivables

	As at June 30, 2021	As at December 31, 2020
	\$	\$
Rents receivable	6,982	4,259
Allowance for expected credit losses	(676)	(1,132)
Net rents receivable	6,306	3,127
Unbilled recoveries	304	665
Other receivables	315	1,420
Total	6,925	5,212

Credit risk arises from the possibility that tenants may experience financial difficulty and be unable to fulfill their lease commitments. The Trust mitigates this risk by varying its tenant mix and staggering lease terms; avoiding dependence on a single tenant for a significant portion of the Trust's operating revenues and conducting credit assessments for all major new tenants. The Trust analyzes its trade receivable on a regular basis and establishes an allowance for expected credit losses that represents its estimate of lifetime expected credit losses to be incurred in respect of its trade receivables. In assessing the adequacy of the allowance for expected credit losses on tenant receivables, management has considered the likelihood of collection of current receivables given the impact on tenant operations of COVID-19 restrictions imposed by various levels of government and the expected eligibility of those tenants to government programs.

The Trust's assessment of expected credit losses is inherently subjective due to the forward-looking nature of the assessments. As a result, the value of the expected credit loss is subject to a degree of uncertainty and is made on the basis of assumptions which may not prove to be accurate with the unprecedented uncertainty caused by COVID-19.

7. Mortgage Loans Payable

Mortgage loans payable are secured by immovable hypothecs on investment properties having a fair value of approximately \$907,987 as at June 30, 2021 (December 31, 2020 – \$890,020).

	As at June 30, 2021	As at December 31, 2020
	\$	\$
Fixed rate mortgage loans payable	403,330	381,665
Floating rate mortgage loans payable	101,444	104,577
Unamortized fair value assumption adjustments	446	576
Unamortized financing expenses	(2,145)	(2,179)
Mortgage loans payable	503,075	484,639

Weighted average term to maturity (years)	4.52	4.69
Range of annual rates	2.37 % - 6.80%	2.37 % - 6.80%

As at June 30, 2021, the mortgage loan scheduled repayments are as follows:

	Scheduled repayments	Principal maturity	Total
	\$	\$	\$
2021*	8,047	81,844	89,891
2022	14,637	30,049	44,686

*For the six-month period remaining.

The Trust may enter into floating-for-fixed interest rate swap agreements on floating interest rate mortgages to hedge the variability in cash flows attributed to fluctuating interest rates. The Trust does not apply hedge accounting to such cash flow hedging relationships (see Note 11). The following table presents relevant information on interest rate swap agreements:

Series G

In October 2019, the Trust issued Series G subordinated convertible, redeemable, unsecured debentures bearing 6.00% interest payable semi-annually and maturing in October 2024, in the amount of \$24,000. The debentures are convertible at the holder's option at any time before October 2024, at a conversion price of \$5.42 per unit ("Series G Conversion Price").

These debentures are not redeemable before October 31, 2024, except in the case of a change in control. As of October 31, 2022, but before October 31, 2023, under certain conditions, the debentures will be redeemable by the Trust at a redemption price equal to their principal amount plus accrued, unpaid interest, provided that the average weighted price based on the volume of units traded on the Toronto Stock Exchange during a period of 20 consecutive trading days ending on the fifth trading day prior to the date on which an advanced notice of redemption is given (the "current market price") is at least 125% of the conversion price.

As of October 31, 2023, but before October 31, 2024, under certain conditions, the debentures will be redeemable by the Trust, in whole or in part at any time and for a redemption price equal to the principal amount thereof plus accrued and unpaid interest. The Trust may, under certain conditions, elect to satisfy its obligation to pay the principal amount of the debentures that are to be redeemed or that have matured by issuing a number of units obtained by dividing the principal amount of the debentures by 95% of the current market price on the date of redemption or maturity.

Series H

In September 2020, the Trust issued Series H subordinated convertible, redeemable, unsecured debentures bearing 7.00% interest payable semi-annually and maturing on October 31, 2025, in the amount of \$30,000. The debentures are convertible at the holder's option at any time before October 31, 2025, at a conversion price of \$3.64 per unit ("Series H Conversion Price").

These debentures are not redeemable before October 31, 2023, except in the case of a change in control. As of October 31, 2023, but before October 31, 2024, under certain conditions, the debentures will be redeemable by the Trust at a redemption price equal to their principal amount plus accrued, unpaid interest, provided that the average weighted price based on the volume of units traded on the Toronto Stock Exchange during a period of 20 consecutive trading days ending on the fifth trading day prior to the date on which an advanced notice of redemption is given (the "current market price") is at least 125% of the conversion price.

As of October 31, 2024, but before October 31, 2025, under certain conditions, the debentures will be redeemable by the Trust, in whole or in part at any time and for a redemption price equal to the principal amount thereof plus accrued and unpaid interest. The Trust may, under certain conditions, elect to satisfy its obligation to pay the principal amount of the debentures that are to be redeemed or that have matured by issuing a number of units obtained by dividing the principal amount of the debentures by 95% of the current market price on the date of redemption or maturity.

As of June 30, 2021, conversion options have been exercised by holders on debentures representing a nominal amount of \$6,577.

9. Bank Loans

The Trust has access to an acquisition line of credit in the amount of \$15,000. This line of credit bears interest at a rate of 3.25% above the prime rate. As at June 30, 2021, no amount was due under the acquisition line of credit (December 31, 2020 – \$15,300).

The Trust also has access to an operating credit facility for a maximum amount of \$8,000. This facility bears interest at a rate of 1% above the prime rate. As at June 30, 2021, no amount was due under the operating credit facility (December 31, 2020 – \$0).

The acquisition line of credit and the operating credit facility are secured by an immoveable first rank hypothec on two properties having a fair value of \$5,692 and by an immoveable second rank hypothec on six properties having a fair value of \$133,317.

10. Class B LP Units

	Six-month period ended June 30, 2021		Year ended December 31, 2020	
	Units	\$	Units	\$
Units outstanding, beginning of period	397,265	1,402	497,265	2,571

Fair value adjustment		228		(778)
Units outstanding, end of period	347,265	1,413	397,265	1,402

The Class B LP Units are exchangeable into Trust units on a one-for-one basis at any time at the option of the holder.

The Class B LP Units are entitled to distribution equal to distribution declared on Trust units, on a one-to-one basis. Distribution on Class B LP Units are recognized in the statement of comprehensive income when declared.

	Three-month period ended June 30,		Six-month periods ended June 30,	
	2021	2020	2021	2020

11. Fair Value Measurement

The following tables show the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. They do not include the fair value of cash and cash equivalent, restricted cash, receivables, balance of sale, trade and other payables and distribution payable to unitholders, which approximated their carrying amount as at June 30, 2021 and December 31, 2020 because of their short-term maturity or because they bear interest at current market rates.

As at June 30, 2021	Carrying amount	Fair value		
		Level 1	Level 2	Level 3
	\$	\$	\$	\$
Measured at fair value				
Conversion and redemption options of convertible debentures (note 8)	9,470	—	—	9,470
Interest rate swap liability	1,446	—	1,447	—
Class B LP Units (note 10)	1,413	1,413	—	—
For which fair values are disclosed				
Mortgage loans payable (note 7)	503,075	—	515,929	—
Convertible debentures, including their conversion and redemption features (note 8)	53,011	50,858	—	—
Bank loans (note 9)				

As at December 31, 2020	Carrying amount	Fair value		
		Level 1	Level 2	Level 3
	\$	\$	\$	\$
Measured at fair value				
Conversion and redemption options of convertible debentures (note 8)	6,486	—	—	6,486
Interest rate swap liability	3,531	—	3,531	—
Class B LP Units (note 10)	1,402	1,402	—	—
For which fair values are disclosed				
Mortgage loans payable (note 7)	484,639	—	507,807	—
Convertible debentures, including their conversion and redemption features (note 8)	54,802	53,703	—	—
Bank loans (note 9)	15,300	—	15,300	—

The fair value of mortgage loans payable was calculated by discounting cash flows from future payments of principal and interest using the period end market rate for various loans with similar risk and credit profiles. The period end market rates have been estimated by reference to published mortgage rates by major financial institutions for similar maturities.

The fair value of convertible debentures, including their conversion and redemption features, was determined with reference to the last quoted trading price preceding the period end.

The fair value of the Class B LP Units is determined with reference to the market price of the Trust units as at period end.

The fair values of derivative financial instruments, which comprise the conversion and redemption options of convertible debentures and an interest rate swap, are based respectively on the partial differential equation method and the discounted future cash flows method. The assumptions used in the partial differential equation method are estimated by reference to the market price of the Trust units and its volatility, and take into account the credit risk of the financial instrument. The assumptions used in the discounted future cash flows method are estimated by reference to the Canadian Dollar Offered Rate ("CDOR") forward rates.

Such fair value estimates are not necessarily indicative of the amounts the Trust might pay or receive in actual market transactions. Potential transaction costs have also not been considered in estimating fair value.

The following tables provide a reconciliation of Level 3 fair value measurements on the consolidated statements of financial position:

Conversion and redemption options of convertible debentures	
\$	
Six-month period ended June 30, 2021	
Balance beginning of period	6,486
Conversion options exercised by holders	(1,697)
Change for the period recognized in profit or loss under Net adjustment to fair value of derivative financial instruments	4,681
Balance end of period	9,470
Conversion and redemption options of convertible debentures	
\$	
Year ended December 31, 2020	
Balance beginning of year	45
Issue of Series H subordinated convertible redeemable debentures	2,691
Conversion options exercised by holders	(57)
Change for the period recognized in profit or loss under Net adjustment to fair value of derivative financial instruments	3,807
Balance end of year	6,486

The following table provides a sensitivity analysis for the volatility applied in fair value measurement of the conversion and redemption options of convertible debentures at June 30, 2021:

	Conversion and redemption options of convertible debentures	Volatility
	\$	%
Volatility sensitivity		
Increase (decrease)		
(0.50%)	9,393	28.79
June 30, 2021	9,470	29.29
0.50%	9,546	29.79

As shown in the sensitivity analysis above, the fair value of the conversion and redemption options of convertible debentures is impacted by a change in the volatility used in the valuation model. Generally, an increase in the volatility, other things being equal, will result in an increase in fair value of the conversion and redemption options of convertible debentures and vice-versa.

12. Unit-based Compensation

a) Deferred unit compensation plan for trustees and certain executive officers

The Trust offers a deferred unit compensation plan for its trustees and certain executive officers. Under this plan, the trustees and certain executive officers may elect to receive as compensation either cash, deferred units, or a combination of both.

The following table presents relevant information on changes in the number of deferred units:

For the six-month periods ended June 30,	2021	2020
	Deferred units	Deferred units
Outstanding, beginning of period	87,920	59,642
Trustees' compensation	4,171	18,342
Distribution paid in units	3,396	3,418
Settled	—	(2,973)
Outstanding, end of period	95,487	78,429

As at June 30, 2021, the liability related to the plan was \$392 (December 31, 2020 - \$306). The related expense recorded in profit or loss amounted to a revenue of 1\$ and an expense of \$87 for the three and six-month period ended June 30, 2021 (for the three and six -month periods ended June 30, 2020 - expense of \$29 and revenue of \$42).

b) Employee unit purchase plan

The Trust offers an optional employee unit purchase plan to all its employees. Under this plan, the employees may contribute, each year, pursuant to a maximum of 3% to 7% of their base salary depending of their years of service with the Trust. For each two units purchased by an employee, the Trust issues one unit from treasury.

As at June 30, 2021, there was no liability related to the plan (December 31, 2020 - \$47). The related expense recorded in profit and loss amounted to \$0 for the three and six-month periods ended June 30, 2021 (for the three and six month periods ended June 30, 2020 - \$nil and \$3). The 14,351 units related to 2020 purchases were issued in February 2021 (11,194 units related to 2019 purchases - February 2020).

c) Restricted unit compensation plan

The Trust offers a restricted unit compensation plan for all executive officers and key employees. Under this plan, the executive officers and key employees are eligible to receive restricted units.

The following table presents relevant information on changes in the restricted units:

Six-month periods ended June 30,	2021	2020
	Restricted units	Restricted units
Outstanding, beginning of period	139,724	165,012
Granted	95,058	49,237
Cancelled	(1,524)	(10,971)
Settled	(71,722)	(59,327)
Outstanding, end of period	161,536	143,951

As at June 30, 2021, the liability related to the plan was \$426 (December 31, 2020 - \$457). The related expense recorded in profit and loss amounted to \$98 and \$283, respectively for the three and six-months period ended June 30, 2021 (for the three and six-months period ended June 30, 2020 - expense of \$22 and an income of \$83).

d) Cash settled share-based retirement compensation plan

On February 9 2021, the Board of Trustees retroactively approved a cash settled phantom share-based retirement allowance plan (RA Plan) for the President and Chief Executive Officer with a start date of July 1,2020, to form part of a long-term incentive compensation plan until retirement. Under this plan, phantom units are granted at set dates to July 1, 2026 based on a predetermined cash value. The number of phantom units granted at each vest date is based on the average closing trading price of the last 5 days prior to granting.

Compensation costs related to the RA Plan are recognized as the phantom units are granted and subsequently remeasured at each reporting period date at fair value. The plan is considered cash-settled share-based payments. The phantom units are recognized as a liability and remeasured at fair value based on the trading price of the Trust units at each reporting date with the change in profit or loss.

The granted RA Plan units are to be paid out on retirement based on the average closing trading price of the last 20 days.

As at June 30 2021, the long-term obligation related to the plan was \$435. The related expense recorded in profit and loss amounted to \$64 and \$435, respectively for the three and six-months periods ended June 30, 2021.

13. Trust Units Issued and Outstanding

BTB is authorized to issue an unlimited number of trust units. Each trust unit represents a single vote at any meeting of unitholders and entitles the unitholder to receive a pro rata share of all distributions. The unitholders have the right to require BTB to redeem their trust units on demand. Upon receipt of the redemption notice, all rights to and under the trust units tendered for redemption are surrendered and the holder thereof is entitled to receive a price per trust unit ("Redemption Price"), as determined by a market formula. The Redemption Price is to be paid in accordance with the conditions provided for in the Declaration of Trust. BTB trust units are considered liability instruments under IFRS because the trust units are redeemable at the option of the holder, however they are presented as equity in accordance with IAS 32.

Trust units issued and outstanding are as follows:

	Six-month period ended June 30, 2021		Year ended December 31, 2020	
	Units	\$	Units	\$

a) Distribution reinvestment plan

BTB offers a distribution reinvestment plan for its trust unitholders. Participation in the plan is optional and under the terms of the plan, cash distribution on trust units are used to purchase additional trust units. The trust units are issued from BTB's treasury at a price based on the volume-weighted average of the trading prices on the Toronto Stock Exchange for the last five trading days before the distribution date, less a 3% discount.

17. Earnings per Unit

BTB's trust units being puttable financial instruments presented as equity in accordance with IAS 32, the Trust is not required to report a profit or loss per trust unit figure on its consolidated statements of comprehensive income. However, for disclosure purposes only, the Trust has determined basic earnings per unit using the same basis that would apply in accordance with IAS 33, *Earnings per Share*.

Net earnings per unit are calculated based on the weighted average number of trust units outstanding as follows:

	Three-month periods ended June 30,		Six-month periods ended June 30,	
	2021	2020	2021	2020
	\$	\$	\$	\$
Net (loss) income	7,161	(1,101)	9,671	(6,688)

Earnings per unit – basic	0.10	(0.02)	0.14	(0.11)

18. Liquidity Risk Management

Liquidity risk is the risk that the Trust will not be able to meet its financial obligations as they come due.

- maximizing cash flows from operations;
- adopting an investment property acquisition and improvement program that takes into account available liquidity;
- using credit facilities;
- staggering mortgage loan maturities;
- maximizing the value of investment properties, thus increasing mortgage financing on renewal of loans; and
- issuing debt securities or BTB's units on the financial markets.

Management believes that the Trust will be able to obtain the financing required to make the payments coming due in the next year. However, there is a risk that changes affecting market conditions and access to financing may invalidate this assumption.

Some mortgage loans include subjective and restrictive covenant clauses under which the Trust must comply with financial conditions and ratios. As at June 30, 2021, the Trust was in compliance with all the covenants to which it was subject.

19. Operating Segments

For investment properties, discrete financial information is provided to the CEO on an aggregated investment property basis. The information provided is net rentals (including gross rent and property expenses), the change in fair value of investment properties and fair value of investment properties. The individual investment properties are aggregated into segments with similar economic characteristics. The CEO considers that this is best achieved by aggregating into retail, office and industrial segments.

Consequently, the Trust is considered to have three operating segments, as follows:

- Retail
- Office
- Industrial

	Retail	Office	Industrial	Total
	\$	\$	\$	\$
Three-month period ended June 30, 2021				
Investment properties	246,666	495,320	180,049	922,035

20. Commitments and Contingencies

Litigation

The Trust is involved in litigation and claims which arise from time to time in the normal course of business. These litigation and claims are generally covered by insurance. In the opinion of management, any liability that may arise from such contingencies will not have a significant adverse effect on the Trust's consolidated financial statements.

21. Subsequent Event

No subsequent events.

22. Comparatives Figures

Certain comparative figures have been reclassified to conform to the current year's presentation.
